NOT ALL BUSINESSES HAVE FALLEN VICTIM TO TODAY'S UNFORGIVING ECONOMY.

(ATLANTA, GA., USA - DECEMBER 23, 2008) Escrow Associates, LLC, the third largest, premiere worldwide provider of custom software and technology escrow services, has maintained consistent double digit growth despite today's weak economic standards. Because of this tremendous unwavering fiscal strength, Escrow Associates, LLC has recently moved to a new larger headquarters in order to accommodate their projected growth.

Escrow Associates, LLC attributes their impressive growth to three distinctive industry factors:

- Overall market approval of Escrow Associates unmatched ability to design completely client-customized services
- Heightened need for the protection of licensed technology assets in an extremely unpredictable and volatile market
- An explosive role in the latest delivery models for a competitive technological edge (i.e. software as a service, handheld and wireless devices).

Escrow Associates, LLC maintains consistent growth, coming in at an average of more than 33% per year for the past five years. "This is made possible through outstanding client services, flexible solutions, unmatched protection for our clients intellectual property, and our ability to immediately become an essential partner for each and every client, regardless of size;" this, according to Christian Dodder, Escrow Associates CEO; "additionally, our new facility has been designed to accommodate continued growth as well as to be a venue for education, and the implementation of the latest and greatest services available in the future of our industry".

Escrow Associates, LLC offers decades of software and technology escrow experience. To learn more about this impressive company, their services, or career opportunities, please visit: <http://www.escrowassociates.com>.

"Escrow Associates, LLC, simple, customizable escrow solutions."
